The correspondents inquired if the Premier had seen the four-page handwritten document asserted to have been sent by Carol to King Perdinand, giving the former Crown Prince's reasons for leaving Rumania.

AS TO AMPRICANS

"No such document exista," asserted M. Bratiano.

To clear up current speculation concerning the relative fank of Queen Marie and Princess Helem mother of the little King Michael, M. Bratiano asid: "The Dowager Queen has precedence over Princess Helem by reason of the fact that she has been resigning Queen."

Questioned as to the possibility of collaboration of the government with the opposition parties, the Premier declared that the Liberal party, inspired by a spirit of constillation, sincerely desires collaboration for the good of the country, and if it does not succeed, the fault will rest with the others. The Liberals, however, he added, have all the force necessary to govern slone.

Describing how the United States could help Rumania most, M. Bratiano said: "First by not believing all the Table of the country, and six the states could help Rumania most, M. Describing how the United States could help Rumanis most, M. Bratiano cald:

"First by not believing all the callumnious reports about us, second, by doing as you are doing, learning to know Rumanis, and third, by having confidence in Rumania's potentialities and future."

The Liberal government has not yet tried to Gotain a loan in the United States, the Premier continued.

PROHIBITION DISCUSSED

"Our efforts heresfore," he explained, "have had as their goal the establishment of financial stability through our own resources in such a manner that American capital may be inspired to have confidence in Rumanis."

DE MAYO JURY HUNG uri "Bootleg Ring" Trial En

KANSAS CITY, Nov. 20. (P)—The jury which had deliberated since Friday night in the trial of Frank De Mayo and Robert Carnahan, charged with violati n of the prohibition jaw and the sale of fake revenue stamps, was discharged by Federal Judge Faris today. The jury reported that it was unable to agree on a verdict after being deadlocked many hours.

It was the second trial and the second hung jury in the case. De Mayo and Carnahan, reputed to head the country's second largest bootleg ring, were indicted in Joplin last June after prohibi'ion agents had been sent to Fansas City to investigate the activities of De Mayo in the illicit liquor traffic. At their trial in September the jury could not agree and was discharged.

SALT LAKE CITY, Nov. 20. (P)—
Eight hundred wild donkeys wandering loose around Price, Utah, are worrying cattle men in that district.

The burros, originally imported for prospectors, are eating all the grass, and in dry years eat the bark off the large trees and entirely devour some of the smaller varieties of trees and shrubs.

The ranchers can corral and ship the wild horses but the donkeys are large trees and entirely devour some of the smaller varieties of trees and shrubs.

There is a 'crying' public need for 'good tailored suits' at 'popular prices.' Why not make a tempting proposition like a 2 for 1 offer? The increased volume would cut the overhead and profit on the first suit to one-third or one-fourth of the usual charge. The second garment would not require any fee, and there would be an immense saving on the shop overhead through the enhanced volume. There would be a saving where two garments are cut to the same

In his conference with President Coolidge Mr. Campbell explained to the Chieg Executive his simple process of saving on the cost of harvesting all forms of grain. Instead of reaping and throwing the grain in bundles from the binders and later shocking it to be later hauled to central places for threshing he simply now mows the grain crop two days earlier than usual, leaves it in windrows to cure in the hot sun for two days and then threshes it by using a modern combine reaper and thresher with a mechanical pick-up which picks up every straw from the windrovs and sacks the threshed grain for immediate marketins. SAN DIEGO TO REDUCE TAXES

Council Pares Thousands Fram Budget

Excess Collected Last Year to Aid Reduction

Begin Public Hearings Next Wednesday Morning

SAN DIECO, Nov. 20.—Beginning Wednesday morning the "big show" in connection with the compilation of the 1928 municipal budget will be staged. Commissioners, department heads and citizens will face the Council in support of their many favorite projects.

Bo far the budget meetings have been tame. Councilmen have remained in a quiet corner and sheared the encomous department estimates down to something like \$278...

300 has been lopped off.

However, most of the departments are still above the figures established by the Council as within the scope of sconomy and commissioners and department bosses have been notified to appear Wednesday and show reasons why further substantial cuts should not be made. Councilmen anticipate many arguments as they are determined to cut budgets to keep the tax rate down.

The city has about \$400,000 on hand collected from the taxpayers this year through overtaxation due to an adding-machine error in the city has about \$400,000 on and the Council has it on hand to defray expenses in 1928. In other words, if all departments are allowed as much as they had this year. The taxpayers have paid in this money and the Council has it on hand to defray expenses in 1928. The legend of time between successive sloughs of a snake varies. In captivity some anakes shed about every month ever during the coldest par of winter. The frequency of sloughing also varies with different individuals and possibly in the same individuals and possibly in the same individual at different ages. Prof. Samuel Garman stated that a large kingsancke in his possession shed its skin in April, July and December, and its mate in March, May, August and Coclober. These snakes were kept in a warm room throughout the year. Ordinarily, says the United State Biological Survey, about two sloughs are cast in a season; one when the snake comes out of hibernation in the spring, and another about midsummer or later. A young and growing anakel however, sheds its skin more frequently—[Pathfinder.]

FEG MURRAY'S DRURY SKETCH Redlands

(Continued from Eleventh Page) haifbacks and a couple of lineamen, crash through an opponent's line or swing around an end. In the S.C.-California game, Edeleson, the Tro-Jans' plunging fullback, was injured and Coseh Jones moved Drury to his place and substituted Don Williams for quarterback 'in place of Drury. What the two of them did to "Nibs" Price's Golden Bears is ancient nistory, and what the two will do against Notre Dame will be very interesting.

Notre Dame will be very interesting.

It is not just because the "Jones system" provides Capt. Drury with fine interference that he finds himself so much in the limelight to lay. Morley can punt, asse, and run interference, and is all over the field on sefense, intercepting passes, recovering fumbles and tacking up the line. A fine, modest, likable lad, tais modern Hector, and fine all-around athlete as well. He starred for Long Beach High School n football, baseball, basketball and tennis, and plays on the S.C. basketball and hockey teams. His brother plays hockey with the Pittsburgh professional team. Last year the big quarterback had a bad knee. This year it is affecting oim as much as Joe Dugan's trick knee bothered him in the world series!

Occidental Tigers, having been a slapped on both cheeks by Whittier and Fomona on successive weeks, are psychologically set to give Coach Otto Klums' University of Hawaii football team a battle, and Los Angeles fandom an interesting afternoon in the Turkey Day pigskin feast at the Coliseum Thursday.

Incidentally, the undefeated Hollywood eleven mingles with the equally unblemished L. A. High team in a preliminary tilt scheduled for the Deans' serial game. Holt has been shifted into the backfield and now plays a halfback position. The other veteran is Capt. Kaco, a 190-pound guard, who claims Hawaii as his birthplace.

Not a great deal is known about the Hawaii team, but dribbings of news from the island would indicate that the Deans have a fairly fast team and a flock of deceptive plays. Hawaii is due to work out in the Fose Bowl today at which time it will be possible to get a line on Klum's latest effering.

Oxy has been due all season, but for some reason has failed to come through, according to advance notice.
The Bengals have played excellent football at times during the season, and at other times their jurying has left a distinctly unpleasant aroma, and at other times their playing has left a distinctly unpleasant aroma, and at other times their playing has left a distinctly unpleasant aroma, and at other times they in the form the faland of Oahu are fully as colorful as their totem, the Rainbow. zona tough and they'll probably find Drake even more so.

Occidental's football team will have a tough customer in Hawaii. The Deans always have a fast and powerful eleven and they are sure to be in fine shape. The Tigers are pretty badly battered after the Pomona game but Exendine has enough good men to put up a cough battle against anybody, as he has so amply demonstrated this year. Several teams have beaten Oxy but none have done so without a tough afternoon and the Bengals are morally certain to make the Hawaiians work for anything that they get Thursday.

Washington and Jefferson is expecting little opposition from West Virginia. The Mountaineers have seen better years. Their hest effort to date was a 7-to-7 tie with Lafayette. Pittsburgh polished them off, 40 to 0, without much trouble.

Kentucky should prove equally simple for Tennessee. They managed to score on Alabama, losing, 21 to 6, but aside from that, haven't shown a thing.

Idaho take on Gonzaga Saturday afternoon. Charlie Erb's Vandals have played three tie games, while winning four tilts. Their two Pacific. Coast Conference victories were at the expense of Montana and Oregon State. In the latter battle, the Vandals really displayed some ability.

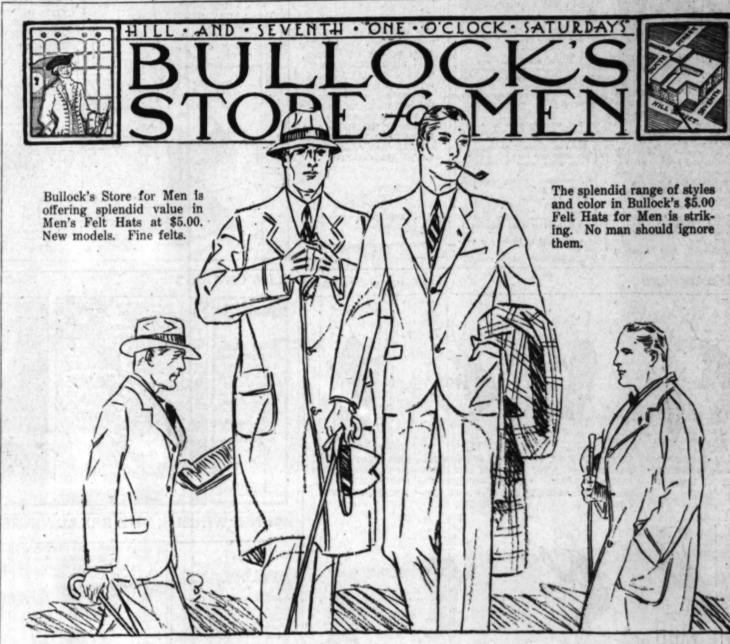

December 3 winds up the national grid season. The Trojana will be locked in deadly combat with Washington in the Coliseum. The Pacific Coast champlonship will be at stake, and, if the Trojans get over Washington and Jefferson is expect-

Referring to statistics for Septe ber, Mr. Ratcliffe said that in that month California was producing an average of 1,415,000 gallons of natural gasoline per day. During the same period approximately 1,365,000 gallons per day of that production was utilized, leaving the excess production of approximately 50,000 gallons per day to go into storage. This excess of 30,000 gallons per day represents 4 per cent of the amount at present being utilized per day. At the end of September there were approximately 33,000,000 gallons of natural gasoline in storage in California which, at the current rate of utilization, amounts to only about twenty-four days supply.

"Such a supply of natural gasoline—300,000 barrels—presents rather a difficult storage problem, because it is not economically feasible to store such a dominodity by itself in ordinary steel tankage," said the Ratcliffe said that in that SHAFT JOB

Custom ore in considerable quantity now is being received in the lead-tine, selective-flotation mill of the Phelps Dodge Corporation, on the outskirts of Blabee. Most of the ore received is lead, from the Phelps Dodge and Shattuck mines. Only eighty feet west of the Junction shaft of the Calumet and Arizona Company, on the 1900 level, has been found a thirty-five-foot body of good ore, a continuation of ore struck on the 1800 some time ago. But nothing will be done with the 1900-level deposit. It is too near the great shaft, which would be menaced by stoping at that point.

F. P. Burrell and other Blabee residents are preparing for instaliation of a small mill on their property in Cave Creek Canyon, on the west side of the Huachuca mountains, near the Mexican line. The ore is refractory, carrying sine and lead.

Transparent, colories animals such as jellyfish can readily he turned blue or red with these dyes while remaining in perfect health. Pigs, again, have been fed with madder, which gives their bones a pink color, and this procedure had been used to study the growth of bone. For if the madder is fed one day and not the next, the bone formed on the first day will show up as a pink layer.

It has long been known that canaries become red when fed with red pepper. Both their feathers and the yolk of their eggs can thus be tinted, and even the skin of infants is said to take on a reddish ting when they are given carrots to eat.—[H. Munro Fox, in the Forum.

THE "CO-ED" FIRE CHIEF
When the last town meeting of
Athens, Me., was held there was no
candidate for the office of fire inspector. A friend jokingly dared
Miss Eleanor Williams, graduate of
Wheston College, class of 1925, to
run. Miss Williams accepted the
dare, was elected, and later learned
that the office of fire inspector included that of chief of the fire department. And it was not long after that when there was a fire which
Chief Williams attended and supervised the work of extinguishing it.

of this week to select a location for their new establishment, and make preparations for its opening. Sconnoft will remain here to direct the parent house.

The concern not only has built a wholesome trade from ships of all flags, but through the owners, ability to talk norwegian, has attracted a wealth of that trade here from skippers heretofore taking most of their fat orders to San Francisco.

The Sconnoft and Callis place also has become the rendezvous and outfitting house for the whaling fleets either operating out of here or passing through, as well as purchasing agent for other lines. They are particular to emphasize, however, that they are not ship agents or brokers, only dealers in marine hardware and provisions.

they are not only against they are not provisions.

Incidentally they will have the big job of outfitting the fleet of the Mexico Whaling Company to depart for Lower California waters this week. The factory tanker Esperanca put in from Morway resterday and will take on several dozen tons of supplies tomorrow after ash bunkers 14,000 barrels of fuel oil at Union's station and completes minor repairs at the Los Angeles shippards.

Accompanying the Esperanca south will be the three killer boats Nanks. Norrona II and Columbus, basing here each summer. They will be joined at Magdalena Bay by the killer Cabral, which came out from Norway with the Esperanca.

the Esperanca.

The Dollar trans-Pacific liner President Taft brought in thirty-five passengers and 1400 tons of freight vesterday on her return from the Orient via San Francisco. Incidentally she afforded the travelers the diversion of watching the transformation of the promenade deck into a glass-enclosed deck while the ship was en route.

While police and detectives were seeking William E. Mc-Lane, 40 years of age, wanted for questioning in connection with the fatal stabbing of his wife, Ada May McLane, 42, at their home, 901 Palm View Drive Saturday. Mclane walked in the back door of the house about 2 p.m. yesterday and gave himself up to Officer Perry. According to Capt. Bean of the homicide squad, the hus-band confessed that he stabbed her during a quarrel which arose when she refused to surrender some legal papers per taining to a property settle-

With the improvements making and to be made this public favor will expand mightily in future seasons. The park is one of the big assets of the State.

R OLLING THE RAILS

The railroads of the country are now paying more than a million dollars a day in taxes. No wonder they have to charge for mileage. The lines take in a lot of money during the year, but it has to be a stupendous business that can stand a rake-off of nearly \$400,000,000 for the tax collector. Numbers of the big systems have for several years back been paying much more in taxes than they have in dividends. Nothing plutocratic about that.

Court, unanimously upholding the right of the Mexican Petroleum Company to con-tinue drilling of lands acquired prior to the time drilling of lands acquired prior to the 1917 Constitution, is of large importance as indicating a probable settlement of the vexing oil and land law problem which has kept relations between the United States and Mexico in a tense state. It will not do to regard the question as settled; technically it in metallicity is presented. nically it is settled only for the one com-pany and for the particular leases involved in this particular suit, since the Mexican courts, in common with other courts organized under the Roman law, pay far less attention to precedent than do our own. There must be at least four other decisions in other cases to establish the rule.

But it is fair to assume that the reason-ing which guided the court to sustain the "amparo" for the Mexican Petroleum Com-pany, declaring invalid the most important evisions of the petroleum statute, will be lowed where similar facts are brought to the court's attention.

The sections of the law declared void, in to far as they apply to the Mexican Petrothe mean spily to the Mexican Petro-leum Company, are Section 14, which seeks to substitute for absolute title to oil lands, a fifty-year concession; and Section 15, which declares forfeited the title to oil land for which no application for concession has been made.

The right of the Mexican government to apply what rule it wished to any lands still held by it or its citizens was never questioned by the United States. Our objection THL NOIST

It cannot be said, of course, that the court was influenced by Mexican desire to retain friendly relations with the United States friendly relations with the United States nor by Mexico's economic position, gravely depressed by a falling off in oil production and consequent loss of revenue that followed the attempted application of the new laws, which went into effect with the beginning of the year. The decision, however, happens to accord with Mexico's needs. Though it was denied officially that the falling off of oil production was caused directly by the enforcement of the law, it was pointed out by a prominent Mexico City newspaper last August that one company which had put down 151 wells in 1926 had applied for only twenty-seven drilling per-

The welcome which Ambassader Morrow received on his arrival in Mexico City is an augury of his probable success.

The seeds in their appointed places,
And smiled to see the plantlings show
Within a week their cheery faces.
But when they withered overnight I learned that I could never grow 'em Unless I toiled with main and might. To hoe 'em.

Next season I attained this art,
I hood the things through sun and shower
And with a glad and hopeful heart
I watched them come to perfect flower.
But lo, they drooped upon the dirt
And I, each season growing wiser,
Discovered that they needed fert-

Whence arises another serious dilemma. If China is to be left wholly to the Chinese, the consequences threaten to be indeed grave, in the matter of life and property and the stability of international relations. If the powers insist apon adherence to their unequal treaty rights and refuse to give up extraterritoriality there is dauger of adding further injury to an already grievously wronged people and of precipitating a stupendous cataclysmic strife.

PIG RUNNERS HOG SHOATS OF RANCHES

Deputy Sheriffs on Trail of New Kind of Renegade Using Dogs for Chase

Deputy sheriffs yesterday were iered to trail and capture a new type of renegade hunter—a type of man who, with the help of a pack of hounds, chooses hogs for its prey, runs them down, binds them secure-ity and hauls them to market with-out the consent or knowledge of the

owner.

The existence of this new type of rustier was revealed yesterday at the Newhall substation of the Sheriff's office when Jess McKenzie of Tejon ranch reported that the renegades had raided the ranch and captured

In your case I believe thirty-two ouncer of raw milk, undituted, is too strong for the baby. Six ounces of boiled milk and two of boiled water and and one or two teaspoonfuls of sugar would make a generally better formula for the average seven-months'-old baby.

Orange juice and vegetable soup are both useful in counteracting this condition.
